From design to completion

Garden buildings
and lodges

Design...

From our initial "Free of charge" consultation, we design to your individual requirements and to the space available.

You may need a home office, a gym, a studio, a workshop, a sunroom, a bar or simply somewhere to chill out.

Whatever your needs, we have lots of ideas and options to help you get exactly the garden building you want.

Design concept for a garden office with porch.

Design concept for a granny annex lodge.

Garden offices both are 3m x 2.5m

Manufacture and installation...

We manufacture all our buildings using fully insulated Sip's (Structural Insulated Panels). With a wide choice of external and internal claddings, windows and electrics.

We use ground screw foundations where possible, as this is clean, quick and eliminates the need for concrete.

Garden office with storeroom 5m x 3m

Leisure room 7m x 3m

Sunroom with bifold doors on to a veranda 6m x 3m.
